

Halle

Surname	First name	Country	PhD/MD	Project title	Supervisor	Institution
Baldensperger	Tim	Germany	PhD	Synthesis, characterization and detection of novel acylated protein modifications in vitro and in vivo	Prof. Dr. Glomb	Institute of Chemistry-Food Chemistry, Martin Luther University
Bezold	Veronika	Germany	PhD	CD33-Sialinsäure-Interaktion in der Alzheimer-Krankheit	Prof. Dr. Horstkorte	Institute for Physiological Chemistry, Faculty of Medicine, Martin Luther University Halle-Wittenberg
Breitkopf	Natalie	Germany	PhD	Biophysikalische Charakterisierung von alterungsbedingten Proteinmodifikationen	Prof. Dr. Balbach	Institute of Physics, Martin Luther University Halle-Wittenberg
Fasse	Rabea	Germany	MD	Impact of histone modification on reproductive system and mesenchymous stem cells	Prof. Dr. Navarrete Santos	Department of Anatomy and Cell Biology, Faculty of Medicine, Martin Luther University Halle-Wittenberg
Hohmann	Christoph	Germany	PhD	Detection of known and novel Advanced Glycation Endproducts in plasma and correlation to hemodialysis and aging	Prof. Dr. Glomb	Institute of Chemistry-Food Chemistry, Martin Luther University
Hübschmann	Ralf	Germany	PhD	Non-enzymatic modifications of the mineralocorticoid rezeptor (MR) during vascular ageing	Prof. Dr. Großmann	Julius Bernstein Institute of Physiology, Faculty of Medicine, Martin Luther University Halle-Wittenberg
Lemnian	Ioana	Germany, Romania	PhD	Integrative Analyse des Methyloms, Transkriptoms und von Proteinmodifikationen in einem Lbr-/- Progeriemodell und bei physiologischer Alterung	Prof. Dr. Hoffmann	Institute of Human Genetics and Medical Biology, Martin Luther University Halle-Wittenberg
Liu	Huaize	China	PhD	The function of the ubiquitin-proteasome system in aging and disease	Dr. Pfirmann	Institute for Physiological Chemistry, Faculty of Medicine, Martin Luther University Halle-Wittenberg
Pfeifer	Jenny	Germany	PhD	Generation of patient specific neurons to analyse synaptic plasticity in age and disease	Prof. Dr. Rujescu/ Dr. Jung	Department of Psychiatry, Psychotherapy and Psychosomatics, Martin Luther University Halle
Piskovatska	Veronika	Ukraine	PhD	Versuche zur Reduktion von AGE's aus dem Plasma: Protektion gegen Inflammation und Zellschaden	Prof. Dr. Simm	Clinic for Heart and Thoracic Surgery, University Hospital Halle (Saale)
Rosenstock	Philip	Germany	PhD	Posttranslational modification of NK cells and impact on NK cell function	Prof. Dr. Horstkorte	Institute for Physiological Chemistry, Faculty of Medicine, Martin Luther University Halle-Wittenberg
Seeling	Tom	Germany	PhD	Influence of a maternal diabetes mellitus and the age on protein modifications in preimplantation embryos of the rabbit	Prof. Dr. Navarrete Santos	Department of Anatomy and Cell Biology, Faculty of Medicine, Martin Luther University Halle-Wittenberg
Serhati	Festa	Kosovo	MD	Epigenetic regulation of gene transcription by nonenzymatic protein modification	Prof. Dr. Horstkorte	Institute for Physiological Chemistry, Faculty of Medicine, Martin Luther University Halle-Wittenberg
Toma	Georgiana	Romania	PhD	Characterisation of age-related changes within the lysine acetylation pattern of immune effector cells	Prof. Dr. Seliger	Institute for Medical Immunology, Faculty of Medicine, Martin Luther University Halle-Wittenberg
Urazova	Arina	Russia	PhD	Epigenetic regulation of gene transcription by non-enzymatic protein modification	Prof. Dr. Simm	Clinic for Heart and Thoracic Surgery, University Hospital Halle (Saale)
Weber	Veronika	Germany	MD	The effect of glycation on the permeability of human blood-brain barrier	Prof. Dr. Horstkorte	Institute for Physiological Chemistry, Faculty of Medicine, Martin Luther University Halle-Wittenberg
